Professional Objective

A proficient web developer with expertise in HTML, CSS, JavaScript, and React, complemented by experience in Tailwindcss/Bootstrap and Nextjs. Skilled in backend technologies such as MongoDB, Express, and Nodejs, with a strong foundation in version control. Dedicated to creating seamless user experiences and optimising web applications. Aspires to leverage technical skills to drive innovation and efficiency in dynamic development environments.enhance user experience, and drive efficiency.

Projects

Restaurant Website

This project showcases a sleek and user-friendly design for a restaurant food delivery app. The interface focuses on providing a seamless user experience, with intuitive navigation for browsing menus, placing orders, and tracking deliveries. The design also includes user profile management, order history, and real-time order tracking, ensuring customers have a smooth and enjoyable dining experience from start to finish.

Tech: Next.js, Tailwind, Framermotion

Github: <https://github.com/chinyex/Restaurant-Website> 

Travel Website Design

This travel app design is built to simplify your journey and enhance the adventure experience. It provides users with an intuitive guide that leads them along easy paths to their destinations. The app features real, offline maps, ensuring seamless navigation even without internet access. Additionally, users can set personalized adventure schedules, planning trips with key attractions and activities.

Tech: Nextjs, React, Tailwindcss, Javascript
